Hodaya Fridland

FULL STACK & AI DEVELOPER

• 054-857-8402 • F0548578402@gmail.com • GitHub

PROFILE

Full Stack Developer (Practical Software Engineering, high honors) building end-to-end systems in .NET, Angular, and React, focusing on applied AI — including RAG, LangChain, LlamaIndex, and MCP — and building solutions that integrate large language models into software systems.

EXPERIENCE

Full Stack Developer Intern · Ministry of Education — 2026

- Developed and maintained enterprise .NET (C#) components over SQL databases.
- Integrated .NET solutions with Microsoft Azure cloud infrastructure.
- Worked in a Pull Request culture (Git, Azure DevOps / TFS) with OOP, Design Patterns, and XUnit tests.

PROJECTS

RAG on AI Coding Tool Docs — Python · LlamaIndex · ChromaDB · Cohere

- RAG system that answers questions over the markdown docs AI coding tools (Claude Code, Copilot) leave in a project.
- Event-driven Workflow: semantic search + reranking, with an LLM router for structured JSON list-queries; bilingual (He/En), hallucination-guarded.

Raffle & Donation Management System — Angular · C# · SQL Server

- Donor, participant, and winner management with raffles and user/admin areas.
- Full CRUD on a layered architecture with dependency injection.

Full E-Commerce Platform — React · Node.js · MongoDB

- End-to-end commerce system (server + client) with secure JWT authentication.
- Order management, product catalog, and a responsive UI.

TECHNICAL SKILLS

LANGUAGES	C#, Java, JavaScript, Python, C, .NET, Node.js, REST API
FRONTEND	Angular, React, HTML, CSS, Bootstrap, PrimeNG, PrimeReact
AI / GENAI	Prompt Engineering, RAG, Claude, LangChain, LlamaIndex, MCP, Cohere, GitHub Copilot
DATABASES	SQL Server, MongoDB, SQLite, ChromaDB (vector)
ARCHITECTURE & DEVOPS	Docker, RabbitMQ, Microservices, CI/CD, Git, Azure DevOps, TFS
TOOLS & TESTING	XUnit, Playwright, Postman, AWS, Rider, OOP, Design Patterns

EDUCATION

AI Engineer · Malka Brook — Completed 2026
Professional applied-AI engineering program (LLMs, RAG, production integration).

Software Engineering — Practical Engineer (MAHAT-certified) — 2024 – 2026
Seminar Beit Yaakov Center, Jerusalem · Graduated with high honors (GPA 95+).

High School Diploma — 2020 – 2024
Beit Yaakov, Jerusalem · Matriculation with distinction (GPA 95+).

LANGUAGES

Hebrew — Native

English — Professional working proficiency
